#43212 Heriot, George, 1759-1839. Deputy Postmaster General of Canada 1800-1816.
Original watercolour (approx. 8" x 10") of the palace of Versailles by Heriot, inscribed at lower right and twice dated 1823, identified as Versailles (France). Double matted and framed in a solid black frame \$1,900

Heriot was a soldier, training at the Royal Military Academy, Woolwich, received artistic instruction from the notable Paul Sandby, and later travelled to Canada holding various positions including assistant storekeeper general, clerk of the cheque. He was appointed to the position of deputy postmaster general in 1800.

After returning to England in 1816, Heriot travelled to France, Italy, Austria, Spain and Germany.
Heriot's paintings have been the subject of several shows and books including the definitive 310 page book "George Heriot Postmaster Painter of the Canadas" by Gerald Finlay.

Heriot is the most famous and prolific painter with any connection to the postal service and is indeed one of the early pioneers of landscape painters in Canada. His Canadian views are largely held in institutions and rarely if ever come to market. Approximately 10 international views have come to market in the last 20 years. A rare opportunity for the philatelic world as most examples trade hands within the art world. A gem for your stamp den.

#43241 #111 5¢ Admiral tied by Montreal machine cancel (1914) on cellophane window envelope paying 5¢ UPU letter rate to unknown country. The cover with additional Ottawa orb cancel and three(!)
